

SPECIAL NOTICE

St Joseph the Worker Job Networking Club Members

In our first year, we have grown from thirty members our first meeting to more than 350 members, with approximately 50 attendees at every meeting! And we have many success stories where our members sought out and found not just meaningful work but very satisfying jobs.

Until now, we relied extensively on electronic mail to keep our members abreast of job fairs, new job announcements, and both geographical and virtual locations for finding assistance and helpful advice. But the 20-30 emails per week are often unintentionally tagged as SPAM, as JUNK MAIL, or are otherwise being blocked from distribution to our membership. So we are compelled to look for alternate means of sharing job-related information with our members.

We have started a new GOOGLE Group (st-joseph-job-networking-club@googlegroups.com). This is a **members-only group** where job-related information will be posted and visible. **Every registered member of our Job Club has been invited to join this group, but they had to respond to the invitation before they were allowed to view posted messages, blogs, and files or be able to participate in job-related discussions.**

If you are already a Job Club member and need assistance joining this Group, please contact the Group manager at dfledder@knology.net. If you are not yet a member, please attend one of our weekly Tuesday meetings and sign a registration form.

This Google Group allows us to better manage the large volume of emails that are typically sent to member email accounts each week. To view posted messages, you must log on to the Google Group.
