

EMAIL CHANGES

St Joseph the Worker Job Networking Club Members

We have started a new GOOGLE Group (st-joseph-job-networking-club@googlegroups.com). This is a **members-only group** where job-related information is posted and visible. **Every registered member of our Job Club belongs to this group.** Membership in the group allows everyone to receive email notices regarding job openings, career fairs, and networking opportunities.

Every member will receive the emails, but you must either have a GMAIL.COM account to view earlier messages, to participate in blog-type discussions, or review posted files. If you have some other account (like HOTMAIL.COM, YAHOO.COM, KNOLOGY.NET, or AOL.COM, etc.), you will need to establish a GOOGLE account and password to access this information. It's easy to subscribe; simply go to <https://www.google.com/accounts> , click on "Create an account now", then proceed to register an existing non-Gmail email address.

Email messages are being sent with this FROM address::

From: st-joseph-job-networking-club@googlegroups.com [mailto:st-joseph-job-networking-club@googlegroups.com] **On Behalf Of** M. Chemsak

If you discover that your Job Club emails are being routed to your Junk Mail or your SPAM folder, please add **st-joseph-job-networking-club@googlegroups.com** to your email Contacts list. Hopefully that will ensure that Job Club messages get to your Inbox.

If you are already a Job Club member and need assistance joining this Group, please contact the Group manager at dfledder@knology.net. If you are not yet a member, please attend one of our weekly Tuesday meetings and sign a registration form.
